

## JEFFERSON CITY SEEKS INPUT ON US 11E CORRIDOR PROJECT

*Survey Open Now*

**JEFFERSON CITY, TN (For Immediate Release)** – The Tennessee Department of Transportation (TDOT) in partnership with Jefferson City launched an online survey for US 11E corridor study. This survey is available online now at <https://metroquestsurvey.com/cy96g>. If you would prefer to take the survey on paper, you may request a copy by calling Lakeway Area Metropolitan Transportation Planning Organization (LAMTPO) at (423) 581-6277. You may also scan the QR below which goes directly to the survey.

The purpose of the US11E corridor study is to improve the overall safety, traffic flow, and operations for all modes of transportation along US Hwy 11E within the Jefferson City boundary. The study area includes US Hwy 11E from W Andrew Johnson Hwy to E Andrew Johnson Hwy and SR 92 from US 11E to George Avenue.

The purpose of this survey is to gain YOUR input on the US 11E corridor study. Specifically, the survey focuses on which improvements are most important to the community and help identify other opportunities for improvement to the area. Please consider the locations mentioned above when answering questions related to safety and operational improvements.

*The survey will remain open to the public until February 15, 2023.*
