

LAMTPO SR-34 / US 11E (W Andrew Johnson Hwy) Corridor Study

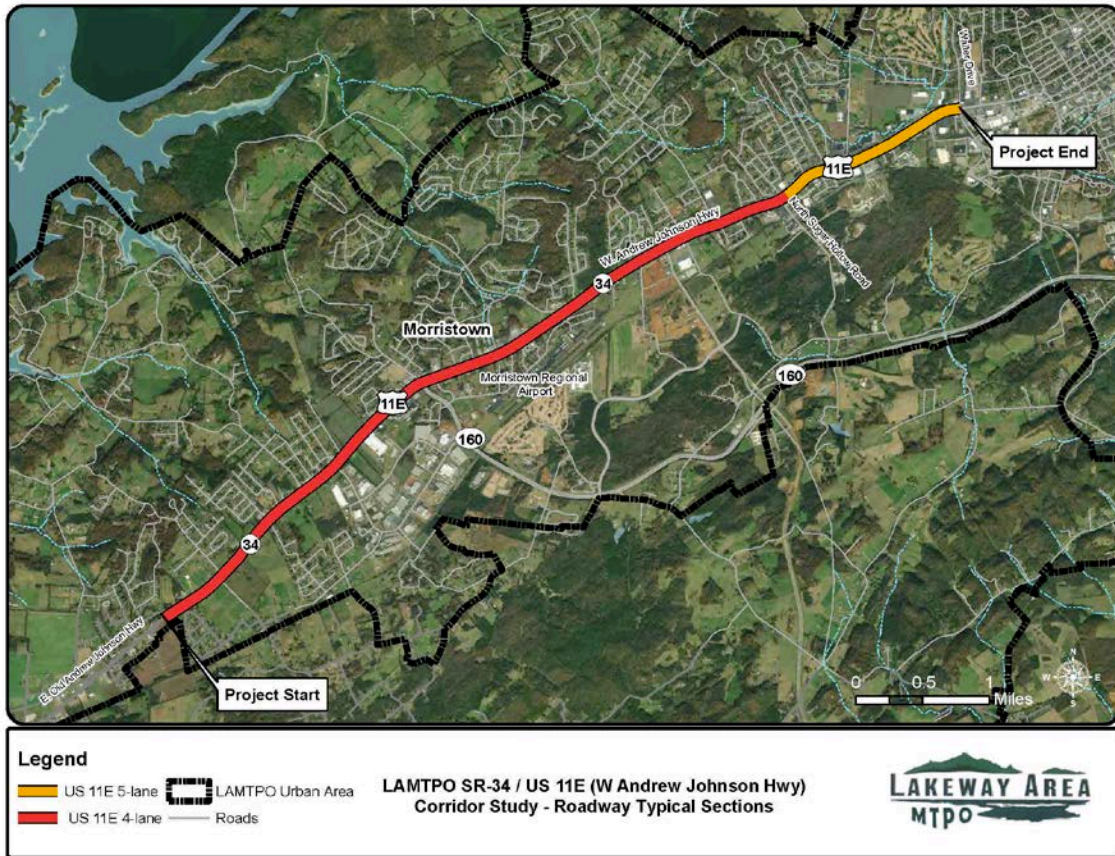

Project Overview:

The Lakeway Area Metropolitan Transportation Planning Organization (LAMTPO) is developing a transportation and land use corridor study for State Route 34 (SR-34) / US Highway 11E (US-11E) / West Andrew Johnson Highway, from the westernmost Morristown Corporation Boundary (located approximately 325 feet west of East Old Andrew Johnson Highway) to the Walters Drive / West Morris Boulevard intersection. The goal of this study is to identify sustainable short and long-term enhancements to the corridor that provide a multitude of transportation options for current and future trends, while maintaining quality of life and encouraging economic growth.

Project Approach:

The study corridor will be reviewed and evaluated for opportunities to improve safety, vehicular capacity, vehicles accessing the roadway from side streets and driveways, and multimodal opportunities. For analysis purposes, the study corridor has been divided into 3 different segments, based on existing land uses, current and future development opportunities and roadway characteristics:

- Segment 1 – Western Project Limits (in Jefferson County) to Commerce Boulevard (±1.7 miles)
- Segment 2 – Commerce Boulevard to East of N. Sugar Hollow Road (±4.0 miles)
- Segment 3 – East of N. Sugar Hollow Road to Walters Drive / W. Morris Boulevard (±1.5 miles)

Public Workshop:

As part of the study, LAMTPO is holding a virtual public workshop on **Thursday, December 3rd**, from **12:00 pm to 1:00 pm** eastern standard time. The purpose of this meeting is to bring awareness and solicit public input on the study area's existing conditions, areas of concern, and areas of opportunity. The meeting will start promptly with introductions, a presentation, and then followed by a question-and-answer session. This meeting will be held via ZOOM. It is not required to download this software to participate. Please be sure to join early to test your audio and functionality. Participants will automatically be muted upon entry, and a question-and-answer box will be available to ask questions throughout the meeting.

To attend the virtual public workshop:

- Click or enter this link to join the video platform ZOOM: <https://zoom.us/j/99174592530>.

(Please join the meeting 5-10 minutes early to test your audio connection.)

OR

- To dial-in and listen over the phone, please call (301) 715 8592 and enter webinar passcode 99174592530#. Additional Involvement: In addition to the virtual public workshop, you can provide feedback and comments using the project's online survey. Please click the link below to access it. (Note, this survey will conclude on **Friday, December 18, 2020**)
